

LinkedIn Community Guidelines

Roche Australia

Welcome to Roche Australia's corporate LinkedIn page.

The purpose of our LinkedIn page is to share stories that showcase what it's like to work at Roche Australia as well as Australian and global news. We invite you to like, comment on and share our content, however, we'd ask that you review the following guidelines to ensure a positive experience for all.

1. We want to foster positive conversation and diverse community around the issues we are passionate about. To that end, we remove profanity, content that contains credible threats or hate speech, content that is aimed at private individuals, personal information meant to harass someone, and repeated unwanted messages.
2. Don't mention any medicines by name — ours or anyone else's. We are part of a highly regulated industry which is governed by our own [Code of Conduct](#), as well as those of [Medicines Australia](#) and the [TGA](#). We, therefore, ask that you do not post any comments that reference any pharmaceutical brand, product, or service. Please do not mention any specific medicines by name, or include any links to third party sites in your comments.
3. This site is not intended or designed for reporting of adverse events. To report an adverse event please contact the Roche Australia Drug Safety Department immediately at Australia.drug_safety@roche.com or on +61 (0)2 9454 9444.
4. Don't pitch your product or service. Please don't use our page as a place to promote your product or pitch your services. Please also avoid posting links to external sites. We reserve the right to remove any posts that are deemed promotional.

Any activity that breaks our community rules will be removed immediately and the individuals may be blocked from the Roche Australia's LinkedIn page.

Roche Australia is committed to protecting your privacy and will handle your personal information such as your name, address and telephone number in accordance with the Privacy Act 1988 (Cth) ("the Act"). You can learn more about our Privacy Policy [here](#).
